

Facilitator: Viktor Valadi

Participants: Joakim Agnemyr, Edwin Eliasson, Viktor Valadi, Mona Kilsgård

Not in attendance:

Date: 2018-10-28

Meeting Agenda

§1 Objectives

- We need to discuss completing the project.
- We need to discuss who will talk about what during the presentation.
- We need to discuss the code in a whole.
- We need to discuss if there is anything we might have missed.
- We need to discuss the presentation.

§2 Reports

- The application is completed. All the assignments from last week are done. Since the project is due today there is not much left to talk about. What remains is to finalize the presentation and upload all documentation to the repository.

§3 Discussion Items

1. What needs to be done before the project is completed?
2. How will we divide the presentation?
3. Is everything good with the code or can we do some small fixes?
4. Is everything in order, is there something we have missed?
5. What more needs to be done with the presentation?

§4 Outcomes and assignments

Outcomes:

1. The SDD and User Stories could need a final touch. Then we need to upload the final report to our repository.
2. The presentation will be divided evenly and the person with most knowledge in the field will talk about that part.
3. The code could need some clean up.
4. Everything seems to be in order.
5. The presentation needs to be completed.

Assignments:

1. Joakim will fix the SDD.
2. Mona will fix the User Stories.
3. Edwin will clean up the code.
4. Viktor will help Joakim and Edwin.
5. Everyone will work together on completing the presentation.

§5 End of Meeting

This was the final meeting.
